Note:

1. Steps / Actions to be completed by the Applicant-

- Engage Class-A licensed contractor for supervised line work and update completion on Jhatpat.
- Submit Electrical Safety NOC (non-domestic cases).
- Ensure safety arrangements & required Infra (MCB; metering room & VCB for 11 kV & Above).
- Confirm site readiness and tentative meter installation date on Jhatpat.

- V. Provide armoured cable.
2. If the applicant opts for line construction under supervision, only a Class A licensed contractor shall be engaged by the applicant to carry out the line construction work. Upon completion of the line construction, the applicant shall inform about the work completion on Jhatpat portal.
 3. The applicant (other than domestic category) will need to provide NOC from electrical safety for meter installation.
 4. The applicant shall ensure all required safety arrangements, including installation of MCB/VCB before meter installation, and in case of supply voltage of 11 kV or above, shall also provide a dedicated metering room on the premises with VCB installation.
 5. The applicant shall confirm site readiness with the tentative date for meter installation on Jhatpat portal.
 6. New electricity connections shall be released through armoured cable only. The armoured cable shall be provided by the applicant. In case the department provides the armoured cable, the cost of the armoured cable shall be recovered from the consumer through the electricity bill. After the release of the connection, if it is found that the connection is not running through an armoured cable, the department will replace the existing non-armoured service cable with an armoured cable, and the cost of the armoured cable will be recovered from the consumer through the electricity bill.
 7. The First Recharge is for activating your smart meter, which will be credited to your account as your prepaid balance. After this you can recharge online through UPI or our website uppcl.org, or can pay at our nearest cash counters.
 8. In future, if load enhancement, category change, name correction, address correction, bill revision, ownership change, or permanent disconnection is required, kindly visit www.consumer.uppcl.org.
 9. In case of any further assistance required kindly contact on toll free number 1912.
